

Spray With Dry Lime Sulfur

Dry Lime Sulfur is effective against the same insect pests and fungus diseases that you have fought with Lime-Sulfur Solution in the past. It will control San Jose Scale, and other scale insects, and is very effective in all winter clean up work.

DISSOLVES READILY in cold water and adheres to the foliage for the longest possible time.

A REAL LIME-SULPHUR Solution, meeting Government specifications in dry powdered form.

NO BARRELS to be returned for refund, which eliminates a good deal of trouble and work.

THE GROWER can carry enough in buggy or automobile to his work. No truck or team required to haul cumbersome tanks of liquid.

CLEAN AND SAFE to handle, while on the other hand, ordinary Lime-Sulphur Solution is disagreeable to use and inconvenient to handle on account of the excessive weight.

For Sale in Sift-proof and Air-tight Impervious Packages in the following sizes: 1s, 5s, 10s, 25s, 100s and bbls.

Locals and Personals

Miss Mary Fablinger is at home this week, while attending teachers' institute.

Jeanette Thompson left Monday for Salt Lake, where she has accepted a position.

Miss Gladys Bean has been appointed as a star point, Esther, in the Vallejo lodge, Eastern Star.

Mr. and Mrs. Stanley B. Smith went to Fresno Wednesday to enjoy the week-end festivities with relatives.

Messrs. and Mesdames W. C. Bohnett and F. O. Bohnett went to Lower Lake to enjoy their Thanksgiving week-end.

Miss Dorothea Smith arrived home from Chico Sunday evening, to spend the week with her mother, Mrs. Ellen R. Smith.

The R. A. Holmes residence on North Central is rapidly taking shape and when completed will be one of the best homes on the avenue.

The Geo. E. Hyde Company has purchased all of the property south of the Prune and Apricot Growers' packing plant, being the property of the Orosi Land Co. and Chas. Beauchamp.

Remember the date, December 5, a fine 5-reel movie at the Campbell Grammar school, with good music. Several prominent soloists have consented to assist in the evening's entertainment.

"Dad" Merrill pulled in his flag at the Campbell avenue crossing of the S. P. tracks Saturday. Next week he and friend wife will take a three-weeks' trip to Los Angeles, San Diego and other seaport towns.

Mrs. C. Wright, of Wrights, spent the week-end as the guest of Miss Mary Fablinger, at her home on North Central avenue. Miss Wright is the daughter of a Santa Clara county pioneer, after whom Wrights station was named.

C. H. Whitman and F. O. Bohnett were shown the spooks of the mystic shrine at San Francisco, Tuesday evening. Nobles J. F. Duncan and H. M. Morton accompanying them to see them safely across the desert and home.

A pageant of home missions will be given at the Congregational church Sunday evening at seven o'clock, under the auspices of the Missionary society. Every effort is being made to make this an interesting and instructive display of the work, and a goodly attendance is desired.

National Bank Directors Organize

The stockholders of the newly chartered "Growers' National Bank" held a business session at I. O. O. F. hall Friday evening.

B. O. Curry was chosen temporary chairman, and F. O. Bohnett, secretary. After a short discussion as to the number of directors to be elected for the first time, it was decided that nine be chosen. They are: Ernest Barron, W. C. Bohnett, E. K. Clendenning, B. O. Curry, R. H. Hyde, Frank C. Nelson, James Turner, J. E. Wiesendanger and L. Woodard.

At the organization of the board of directors which followed, R. O. Curry was elected president and E. K. Clendenning vice president, R. H. Hyde acting secretary, pro tem. Various committees were appointed to make investigations as to location, supplies and employment of cashier.

Thanksgiving Fittingly Observed

The movie benefit program was a most gratifying success. The popularity of the show proved the assembly hall far too small for the attendance. The program, aside from the three reels of comedy film, was furnished by the pupils of the various grades. During the film scenes, music was furnished by Miss Willson, Evelyn and Elva Crawford and Dorothy Gross.

In all the many times that the auditorium stage has been beautifully decorated for various occasions, it never presented a more attractive appearance than in its "autumn dress." Cornstalks, pumpkins, autumn foliage and large bowls of chrysanthemums furnished a wonderful setting for the character of the entertainment.

The big attraction was the initial appearance of the new, twenty-piece, Grammar school band, and this was a genuine surprise to all. Many complimentary remarks were heard on the rapid progress Mr. Bohnett has made with these boys entirely new to instruments. The first numbers on the program were "Yankee Doodle" and "America," by the band. The 6th, 7th and 8th grades sang two choruses appropriate to the season: "The Landing of the Pilgrims," and "Harvest Song." Miss Atkinson's pupils performed two stunts, pilgrim maidens in a class recitation and boys as bobbing pumpkins over a high board fence, in imitation of "ten little Indian boys."

A number of Miss Flanders' pupils gave a two-scene tableau in costume, of the Pilgrims in preparation for the first Thanksgiving, which was very cleverly executed.

This was followed by a pretty violin solo by Evelyn Crawford, with Dorothy Gross at the piano.

Boys of Miss Rease's room appeared as Brownies, and recounted the various things they had for dinner, the last one ending the tale with the plaint of a pain in his "tummy."

At the close, Mrs. W. I. Merrill, on behalf of the Home and School Club, expressed thanks for the liberal and enthusiastic manner in which the Movie proposition had been received. As proof of its popularity the Club has been able to pay over a third of the indebtedness.

The boys now comprising the band are: Ellis DeSelle, cornet; Anthony Bargas, cornet; Manuel Homen, cornet; Henry Cornelius, cornet; Lawrence Ferro, cornet; Leo Hedegard, cornet; Billie Robinson, cornet; Irwin Henry, cornet; Kenneth Peak, tenor; Edwin Mitchell, alto; Walter Hulsman, alto; Foster Downey, alto; Elbridge Paddock, alto; George Osborne, alto; Virgil Drake, alto; Bernard Robson, alto; Robert Holmes, baritone; Harold Cramer, bass; Everett Davis, snare drum; Carl Creigh, bass drum.

The next program will be given Friday, December 5, when a five-reel feature will be shown. Anyone desiring to make donations, large or small, to this movie fund, may leave their money at the Press office.

Campbell Makes Shipping Record

Campbell is some town, in fact is the best shipping point on the Southern Pacific between San Jose and Watsonville, as a few figures will show.

Since July 1st this point has shipped out 480 car loads of green, canned and dried fruit, beside tons of fruit in small lots. With these shipments already made, there are still needed 150 cars to move the fruit at present in our four packing houses.

During the month of October, agent Berry shipped 88 cars of fruit, as against 55 cars for the same period last year, and had cars been available, the month's record would show 188 cars.

The business of the local office for October was over \$50,000 to only \$35,000 last year, an increase of almost 50 per cent. The cash receipts of the office were \$13,000 this October, as compared with \$3,250 the year before. The total tonnage for the season was 8,715,240 pounds.

Such figures as above, quoted from office records, will give our readers some idea of the importance of our local fruit-packing industry.

Red Cross Drive

The local district Red Cross drive report made by Mrs. G. L. Parso is as follows:

	members	magazines	gifts
Campbell	188	6	
Hamilton	75	2	
Cambrian	49	3	
San Tomas	58	2	\$4
Moreland	28		
Total	398	13	\$4

Thanksgiving

Thanksgiving is a kind of turning point in the year. It's a corner that we round to face toward the holiday season and Christmas. The stores will open their batteries of gift advertisements soon. Young people will begin to glow with pleasant anticipations. Older folks, on the other hand, some of them, will begin to have a dull, leaden, soul-depressing feeling in the region of the pocketbook.

But whether we have reason to be gay, or cause to be sad, on Thanksgiving Day, we should make way for joy. We should make a job of being joyful. There should be a time for everything that is right, and Thanksgiving is a time to be happy, or the day wouldn't bear the name that it does. To be dull on this day would have a dampening effect on the pleasure of others, and so would be selfish. Therefore we'll bring out our joys, rub off the dust, give them a bright polish, and set them on the center table to look at. 'Twill do us good.

Poultry Industry Growing

Ex. W. "Billy" Ohlen is making preparations for the biggest chick season ever. He has built a two-story, 20x40 hatchery, which will accommodate 34,540-egg incubators. He already has 16 installed in his basement. He has purchased 15 new charter regulators for his lamps, to insure proper heat. When his plant is equipped he will require about 800 dozen of eggs per week to keep the artificial hens busy, and with success will ship about 5,000 chicks per week. He prophesies the best hatching season in history for the coming year, and is planning to be on the ground floor.

C. W. Toles has sold his Sunnyoaks Ranch south of town to Chas. H. Gribbe of the Willows district.

Mr. and Mrs. F. M. Righter attended the Stanford-California game to see their son, Erwin, perform at center. The big boy from Campbell was in the midst of the fray from start to finish, playing a stellar part on several occasions, and we are all proud of our local man.

Two Jolly Parties Entertained

On the evening of the seventh, Mr. and Mrs. Snow were at home to the High School faculty and families, and an enjoyable re-union was passed in non-shop talk.

November 14, they entertained eleven boys of Mrs. Snow's Sunday School class, of the San Jose Congregational church, and eleven Campbell girls. Although utter strangers at the beginning, the young folks soon were enjoying a most delightful time at games.

BOY SCOUTS

(Conducted by National Council of the Boy Scouts of America.)

SCOUTS PROVE THEIR GRIT

A visitor at Camp Wewalaissa, the summer camp of North Hudson council, Boy Scouts of America, at Bear Mountain, Interstate park, tells a bear-cat story which he got direct from his boy.

It was their first night on the islands. Taps had been sounded, and the camp was settling down to a quiet slumber, when from one of the islands came a low, blood-curdling screech.

"Some cat," ventured a scout in one of the tents.

"Cat, nothing," exclaimed another in the same tent, excitedly. "It's a wildcat."

This statement brought six other tousleheads from underneath six blankets in the tent. A hurried conference was called, and it was decided that they just had to go out and get the wildcat.

Arming themselves with broken oars and old broom-handles, and with their scout knives safely hitched to their belts, the boys crept stealthily from their tent out into the starry night. The shriek again pierced the still night air.

Suddenly the leader called a halt. His foot touched something. It was another scout. In fact another group, and still another group. The scouts began to assemble rapidly, and it finally seemed that every tent had a delegation present. Excited whispers as to how to proceed broke the silence, but suddenly everybody grew quiet, as a tall figure loomed up in the darkness.

It was Lieut. H. Hudson of Westfield, N. J., resident director of the camp. "I've got the wildcat, fellows," he said quietly; "now hustle back to camp."

Lieutenant Hudson would advance no information, but ordered everybody back to bed. But the story leaked out and spread from tent to tent. The truth was that the shriek was not that of a wild cat, but an ordinary boy scout imitating that animal. The wildcat was Scout George Becker of West Hoboken.

THE SEA SCOUT'S CHANTEY.

This is a modern chantey, sung by the crew of the sea scouts who took the famous pioneering trip up the Connecticut river in government boats. It was written by Chief Sea Scout James A. Wilder of Honolulu:

A ship is wood and metal,
Is metal, rigging and sail—
She's but an iron kettle,
When hearts aboard her fall!

Hauling Chorus:
To my way-ay and yea, yea,
We're bound away for many a day,
A seasout is a good scout,
So give us our seaway.

The heart of ships is red-blood,
Red-blood—never a doubt!
And wood and iron useless
Without the heart of scout.
(Chorus)

Our ship is what we make her,
Make her—saucy and smart,
No blustering wind shall break her,
While we are all of a heart.
(Chorus)

VICTORY HALL TO HOUSE SCOUTS

Exterior designs and floor plans have been prepared for submission to the board of estimate in New York city for "Victory Hall," a memorial building to the world war soldiers of New York city.

The plans show a ground floor, to be used as an exhibition hall, 30 feet high and 200 by 320 feet square. The basement is to contain one of the largest swimming pools in the world, a gymnasium and a rifle range.

The second floor will be a convention hall. The third story is to contain chapter rooms for the meetings of the G. A. R., A. E. F., American Legion, Boy Scouts, Public School Athletic league and Amateur Athletic union. A flat roof will afford facilities for a playground.

INNES TRAINS SCOUT BAND.

The Denver boy scouts' band of 65, directed by Frederick Nell Innes, is an organization of which Denver may well be proud. Introducing the band Professor Innes said:

"It is a genuine tribute to the high intelligence and untiring application of these boys that they, in less than 120 days, have become proficient enough to appear in a public concert, and I am sincerely proud to be their director. This band is wholly self-supporting. The members bought their own instruments. I have been glad to give my services in training them."

Santa Barbara.—The body of Mrs. Marcela Ragola narrowly escaped cremation here yesterday when a candle, burning in her memory, overturned and set fire to the lining of her coffin. The fire department was called and extinguished the blaze.

ALLEN M. CLAY DIES AT BERKELEY RESIDENCE

Bank Secretary Succumbs After Being Stricken With Paralysis

Berkeley.—Allen Morgan Clay, secretary of the Bank of California of San Francisco, died November 17 at his home, 2819 Derby street, following a brief illness. Clay was stricken with paralysis three days ago. He was 64 years of age and a native of New York. Clay came to California 32 years ago and had been employed in the Bank of California for 30 years, working up to the position of secretary. He has resided in Berkeley 15 years, making his home in Alameda prior to that time.

He was a member of the Alameda Lodge of Masons and a member of the Scottish Rite of Oakland. He was also a member of the California Yacht Club and a former commodore of the organization.

Clay is survived by his widow, Mrs. Minta Robinson Clay, and two daughters, Mrs. Charles F. Eckart of the Hawaiian Islands and Mrs. William I. Gardner of Piedmont. The funeral was held November 19.

REV. NERI, OLDEST JESUIT PRIEST IN STATE, DIES

Born of Noble Parentage in Italy, He Came to California in 1861

San Francisco.—Rev. Father Joseph M. Neri, one of the oldest members of the Society of Jesus in California and a noted scientist, died November 17 at Santa Clara University after an illness of five days with paralysis. He was the first of the society to be ordained into the priesthood in California, and was one of the most widely known clergymen in San Francisco and Santa Clara counties in the last half century. His pioneer work in physics attracted wide attention.

Born at Novara, Italy, January 16, 1836, of noble parentage, he came to America in 1858 with a little band of novices. After three years at Georgetown University he came to California, where he made his home until his death. He was ordained in old St. Mary's Cathedral by Archbishop Loga of the City of Mexico, December 22, 1861. Half a century later he celebrated the golden jubilee of his ordination at Santa Clara.

For 25 years Father Neri was professor of natural sciences, philosophy, physics and chemistry at St. Ignatius College. He was organizer of the Gentlemen's Sodality. He also founded the Loyola Scientific Society of San Francisco.

During the centennial celebration in San Francisco in 1876 he flooded Market street from the Ferry to Van Ness avenue with arc lights of his own invention. It was the first time an arc light was seen in the city.

MILLS COLLEGE BIRTHDAY FETE IS HELD

Oakland.—The anniversary of the birth of Mrs. Susan Lincoln Mills, founder of Mills College, November 18, was observed in accordance with an annual custom. This year, however, the ceremonies were different. The students and faculty gathered immediately after dinner in the court between the two newest dormitories, Olney Hall and Orchard House, and formally welcomed the latter into the group of college buildings and equipment.

President Aurelia Henry Reinhardt presided and spoke on "Real Memorials." Dr. Anna Shipley Cox responded for Orchard House, of which she is the social head, and Miss Marion Possens, a graduate of Mills and the social head of Olney Hall, gave the greetings from that center, which was named in honor of Warren Olney, who has served on the board of trustees of Mills College for more than thirty years.

Professor E. O. Jones of the English department, who was a member of the Mills faculty when the founder was still living, spoke for the college. A number of the students gathered on the balconies of the dormitories and joined in antiphonal choral singing.

BREAD SHIPPED TO HOGS WHILE PRICE STAYS UP

San Francisco.—Thousands of loaves of bread daily are shipped to hog ranches up river, while the staff is paying high prices for "the staff of life," according to Supervisor Charles A. Nelson, chairman of the special food commission.

The bread is not more than two days old in most cases and would be purchased by many people if the baking companies would sell it at a reduced price, says Nelson.

A rigid investigation into this new angle of the bread inquiry is being conducted by Supervisor Nelson, he recently announced.

Prosecution of baking companies alleged to be selling stale bread to hog ranches at 3 cents a pound rather than offer it to the public is predicted by Nelson, who for several days has been gathering evidence.

Chico.—Fire destroyed the Durham jail, two adjoining buildings and threatened the Durham Grammar School here. The fire originated in a barn at the rear of the jail. The loss is estimated at \$17,500.

Condensed California News

Los Angeles.—Hard cider does not come under the wartime prohibition ban, according to a ruling announced by Internal Revenue Collector Carter, if nothing has been added to the cider to make it extra hard.

Sacramento.—Adjutant-General J. J. Borree lies at a local hospital suffering from a severe attack of heart trouble. Borree was taken to the hospital late Sunday, November 16. Physicians said his condition was not critical.

Willows.—The Bank of Willows has reached the \$3,000,000 mark, making it one of the largest banks in Northern California. The savings department, which was opened in February, 1917, has deposits exceeding \$1,000,000.

Visalia.—Mrs. Iwana Yoshino, wife of a Japanese merchant, died in a local hospital from a self-inflicted bullet wound. Mrs. Yoshino, seated in a chair, placed a revolver against her throat and fired the bullet through her windpipe. No reason for the suicide is known.

Sacramento.—Governor Stephens received official notice from Secretary of State Robert Lansing that the State Department had received the governor's notification of the ratification by the California Legislature of the Federal woman suffrage amendment. Formalities of ratification by California now are completed.

Marysville.—Attempting single-handed to raid an alleged gambling game in a Japanese boarding house here early Sunday, November 16, Officer William Booth captured T. Hatano and S. Samuto and considerable gambling apparatus. Much money was scattered over the floor of the room when more than twenty Japanese escaped through doors.

San Jose.—B. F. Church, assistant Southern Pacific agent at Sunnyvale, near here, was held up November 14 by a masked bandit and forced to stand by while the bandit took about \$150 from the cash drawer in the station. Another robber stood watch at the door. The man escaped.

Vallejo.—The second fire within forty-eight hours at the Mare Island Navy Yard Monday night, November 17, destroyed building No. 69, filled with government stores and torpedo boat supplies. The loss will be \$300,000. The origin of the fire is unknown, but it is suspected that it may have been of incendiary origin. Last Saturday night the commissary store burned.

Los Angeles.—Fire here early Sunday, November 16, destroyed three buildings at the Robert Brunton motion picture studio, causing a loss estimated at \$20,000. Scottie, Mary Pickford's pet Airedale dog, who appears prominently in one of her late productions, perished in the flames. Other valuable animals also were burned to death.

Riverside.—A detachment of fourteen officers and eighty men of the 9th Aero Squadron, in command of Lieutenant-Colonel H. L. Watson, arrived at March field shortly after noon Sunday, November 16, completing a two-day trip by truck train from Rockwell field, San Diego. The trip was in the nature of a practice march, the detachment planning to return south in a few days.

Vallejo.—Rex Quinn, who was found by a marine guard in a hole in an isolated spot on Mare Island with his hands and feet tied last week, is said to have been left there by friends, as Quinn is alleged to have overstayed his leave, and fearing the consequences, to have thought of this excuse. Officers say they are wondering whether to award a medal to Quinn for his "absent without leave" idea or to punish him.

Stanford University.—Announcement was made on the campus of the marriage of Herbert Dunn, Stanford man of the class of 1918, and Miss Mary Taylor of Fresno. According to the society columns of the student paper, the Daily Palo Alto, Dunn will bring his bride to Stanford and complete his University training. Miss Turner is a member of the Delta Delta Delta sorority, and during the past two years attended the University of California. Dunn served in the war as a Lieutenant in the air service.

Oakland.—Charles Z. Merritt, aged 66, father of Ralph Merritt, Food Administrator for California, died Sunday, November 16, at his home, 3527 Telegraph avenue. He was a native of Illinois. He had been ill three years with an attack of paralysis. Besides his son, he is survived by a daughter, Charlotte Hazel Merritt; a brother, Rev. William P. Merritt; and a sister, Mrs. Russell Whitman.

San Francisco.—Suit for \$10,550 for breach of promise was filed against Alessandro Anzloti by Miss Amalia Barsotti, who says she was betrothed to him in Italy in April, 1919, and at his request came to San Francisco last August to marry him, but learned when she arrived that he had married another woman. She said she was penniless and knew no one and is now cared for by charitable persons who learned of her plight.

South Pasadena.—Working in daylight, in the guise of meter readers, one or two men last week burglarized nine homes in this city.

San Diego.—Announcement that complete transcontinental passenger traffic would soon be in operation on the newly completed San Diego and Arizona railway was made by D. W. Pontius, general manager of the road.

Salinas.—William Mahlmen, a San Francisco real estate broker, and Mrs. Olga Jean Barney, also of that city, were married here November 18 by Justice David Wallace. The couple left for the Hotel Del Monte, where they are spending their honeymoon.

Marysville.—Mrs. Fred J. Wilson and Frank A. McCormick were arraigned here Monday, November 17, on charges of first degree murder, before Judge Eugene P. McDonald of Yuba county. They pleaded not guilty to the charge of killing Charles A. Brown, wealthy sheep raiser, on the Wilson ranch on November 1. Separate trials were asked by counsel for the defendants and the dates for starting the trials will be set next Monday. Bail was denied both prisoners.

San Francisco.—Miss Edna Stevens, daughter of Mrs. Mary Anne Stevens of San Francisco, was married in New York City Wednesday, November 19, to Charles Barrett of Bellevue, Pa., well-known college football star of the Cornell team which defeated Harvard in 1915. The wedding took place at the home of Mr. and Mrs. Valentine Treat, with whom Miss Stevens has been staying since she reached New York on Saturday.

Fresno.—Plans are now being drawn for a swimming pool in Roeding Park here that will be when completed, it is stated, the largest pool of the kind in the state. It will be 400 feet long by 50 feet wide, and the depth will vary from one to eight feet. As Roeding Park belongs to the city, it is thought that there will be a great deal of benefit to be derived from the municipal swimming pool. The approximate cost of the pool will be \$13,000 and present plans call for the raising of part of the amount by the city and the remainder by private subscription.

El Centro.—E. F. Lack, a business man of El Centro, was shot and possibly fatally wounded by a Mexican policeman at Mexicali, Lower California, twelve miles south of El Centro, according to statements of Imperial county officers. The shooting occurred 100 feet from the American line and not far from the American customs house at Calexico, just across the boundary from Mexicali. It is alleged that after shooting Lack, the Mexican officer kicked the American along the sidewalk.

Stockton.—J. M. Kroyer, president of the Kroyer Tractor Manufacturing Company, has filed articles of incorporation with the county clerk for a \$5,000,000 plant to manufacture a new four-pull tractor. Kroyer announced that construction of the plant will begin in the spring and operations within a year. The plant will cover eighty acres at the eastern edge of the city on the Cherokee lane. The first season's output will be 1500 tractors, it is estimated. The buildings will be modern, designed according to the latest ideas. The layout of the buildings has been so arranged that additional units may be added from time to time.

Kroyer was formerly manager of the Sampson Tractor Company. San Francisco.—Arthur Crane, local attorney, surrendered to United States Marshal James B. Holohan and will be taken to the Federal penitentiary at McNeil island to serve a sentence of two years imposed by Federal Judge Maurice T. Dooling for using the mails to defraud. Crane was convicted by a Federal jury last year and was released on bail of \$7500 pending an appeal of the United States Circuit Court of Appeals. He is said to have mulcted hundreds of people of their savings by a scheme in which he posed as a possessor of divine healing powers. With each course of treatment he gave out a copy of his pamphlet, "The Great Exorcism."

San Francisco.—Anna Karavos, 5 years old, daughter of Pete Karavos, 28 Clara street, died at the Emergency Hospital from burns received when her clothing caught fire while playing with matches.

Mrs. Karavos lost her six children to go to the grocery store, and returning saw her daughter rush out of the house with her clothes blazing. She attempted to smother the flames with her own clothing, but the child's face and body were burnt before the fire could be put out.

She was rushed to the Harbor Emergency Hospital and died several hours later.

ORCHESTRA FOUNDER DIES IN BOSTON

Boston.—The death of Major Henry L. Highison, banker and founder of the Boston Symphony Orchestra, was announced November 15. He died at the Massachusetts general hospital after an operation. Had he lived until Tuesday he would have been 85 years old.

POWERFUL SENTIMENT DEVELOPING FOR EARLY ERADICATION OF TUBERCULOSIS

Cattle at National Soldiers' Home, Washington, D. C., Were First Herds to Be Officially Accredited as Free From Tuberculosis.

(Prepared by the United States Department of Agriculture.)

That a powerful sentiment is developing among farmers, dairymen and cattle breeders in every section of the country for the early and complete eradication of animal tuberculosis is shown by hundreds of letters received by the United States department of agriculture. These letters, with few exceptions, give unreserved endorsement of live-stock owners to the plan of fighting tuberculosis in which the bureau of animal industry is co-operating with state live stock authorities.

The department of agriculture intends to publish a number of these letters with the names of the writers, because it believes the experiences they tell and the views they express should be convincing to live stock owners who have not joined actively in the fight against this disease.

Many of the writers already are listed in the department of agriculture's directory of herds officially accredited as free from tuberculosis.

Tuberculin Test Most Effective.

The following letter to the department is from Bryant Smith, manager of the Iowa farms, Davenport, Ia.:

"Iowa farms desires to commend and express their satisfaction with the work of the federal co-operating with the state authorities in the eradication of tuberculosis. The very extended experience of the federal inspectors enables them to detect and eliminate the doubtful and suspicious cases, the animals which become sources of infection when left in the herd."

"We urge every owner of cattle, of dairy or beef breeds, to have his cattle tested for tuberculosis under the supervision of the federal inspectors working with the state authorities."

"We urge all owners of cattle to use their influence to secure, through proper legislation, reasonable compensation by the state of losses sustained in the eradication of tuberculosis."

"We urge every reader to co-operate with the federal and state authorities in their campaign to eradicate tuberculosis, and we believe the most effective and surest method is the use of the tuberculin test, as advocated and practiced by the federal and state bureaus."

Has Heard No Criticism.

Here is another letter of the same character from F. Darcey, secretary of the Inter-County Holstein Breeders' association, Watertown, Wis.:

"It gives me great pleasure to be able to endorse a movement which I believe is going to be a life saver for the breeder who is playing the game on top of the table. The accredited herd plan makes the pure-bred game a safer, better and more encouraging proposition."

"I have my herd on the list. This fact relieves me of that constant dread of infection which haunts a man who does not know where he is with reference to tuberculosis. I know that if I should be unlucky enough to pick up a germ, it will be detected in its incubating stage and in consequence forestall heavy losses which many unfortunate breeders have experienced. "A true test of its merit may be realized when I tell you that I have yet to hear a word of destructive criticism. I have talked to many breeders on the subject. The test to become general among cattle men has only to be explained to them. All our boys in this vicinity want to get on the list."

"I am certain the fact that my herd is on the list enhances its value. The inspectors with whom I have come in contact are gentlemen well versed in their work and attentive to duty."

"Only Way to Eradicate Tuberculosis."

Extracts from other letters follow:

"I cannot speak too highly of this work. My entire herd of 80 head has been tested the second time, and I find everything all right. I have had considerable trouble during the past five or six years, but now begin to feel that I have entire control of the situation. I am doing all I can to encourage other breeders to put their herds under the government's supervision as I think it is the only way to eradicate tuberculosis trouble."—H. A. Moses, President Strathmore Paper Company, Milton, Mass.

"Government testing for tuberculosis is one of the best helps that could possibly be offered to dairymen. It is just as good as fire insurance and

just as much needed."—E. W. Files, Maplecroft Farm, Portland, Me.

"The work of the department in eradicating the disease of tuberculosis is being met with great approval by the stockmen in this district. The percentage of cattle affected with the disease is gradually getting smaller year by year."—W. L. Burdick, Williston, N. D.

Benefits of Eradication.

"The benefits from being able to ship interstate, the advertisement received from being listed in the government bulletin, these and many other advantages make me think this is the greatest boon to the pure-bred cattle business ever started."—T. S. Humphries, Humphries Stock Farm, Durant, Miss.

"In May, 1918, we signed up with the federal authorities to get on the accredited herd list. Our first test was made the 27th and 28th of the same month and found our herd somewhat infected with tuberculosis. But the federal authorities have kept testing our herd from time to time until today we have 80 head of Red Polled cattle which we believe to be entirely clean. We are positive that if we had not gone into this plan, by this time our herd would have been badly infected, causing us the loss of a great many dollars. We would fully recommend the accredited-herd plan to all breeders of pure-bred cattle."—J. W. Larabee, Earleville, Ill.

Tuberculosis Soon a Memory.

"We, the undersigned breeders of Guernsey cattle, have co-operated with the state and federal government for a number of years for the eradication of tuberculosis in our herds. We do heartily agree it has been of great value in cleaning and keeping clean our herds of tuberculosis. We believe every breeder of pure-bred cattle should co-operate with their state and federal authorities in trying to stamp out this disease. If they will do this tuberculosis will soon be a thing of the past."—Charles E. Wirt, William Nettleton, J. H. Nahrang, Lewiston, Minn.

"To the breeder of pedigreed cattle the inspection by governmental authority of his herd is of untold value. Not only in dollars, enabling him to remain free of tuberculosis, or if his cattle are found infected to dispose of those reacting to tuberculin, and thereby saving the lives and conserving the value of those not affected. The satisfaction of asserting that one's herd is on the accredited list becomes a moral as well as financial asset."—Benjamin W. Hunt, Eatonton, Ga.

"There are undoubtedly some unscrupulous men in the business who will take every advantage they can, and if the states and government will co-operate in this work and only pass cattle that have been tested by authorized men, the disease will soon be stamped out."—C. B. Gager, Paris, Ky.

Of Incalculable Value.

"The value to the state in the protection of the whole cattle industry and the advantage to the individual breeder is of incalculable value. In a short time the benefits to be derived from the accredited herd plan will be so plain that all breeders of pure-bred cattle especially will be forced, in order to sell their cattle to advantage, to become members of the accredited herd system."—R. J. Goode, Jr., Alabama Hereford Farm, Gastonburg, Ala.

"Confidence is the chief value of tuberculin testing. First, self-confidence that comes from knowing your herd is free from tuberculosis and the satisfaction that comes from this condition; second, the confidence the buying public puts in your herd. The public is willing to pay for this confidence. This makes my breeding work a pleasure and also profitable."—W. H. Senour, Brookville, Ind., President of the Indiana Dairy Association.

"We have been much interested in getting our neighboring breeders to have their herds tested, so that we might have a clean bill of health in this community. So far we have been instrumental in securing over fifty applications for the tuberculin test and to the best of our knowledge every one is satisfied with the results and has full faith in its application. The only regret that I have is that there is not a compulsory law so that we might rid the entire United States of this insidious disease."—Willis Whinnery, Salem, O.

Oil Investments of Unusual Merit

The enormous profit possibilities of our Texas oil investments are beyond conception. We are offering the grand opportunity to those who are foresighted enough to make a good investment. We are California men who have actually been in the big Texas oil fields and after a thorough investigation we do not hesitate to recommend the best there is in oil stock or oil leases to our clients. It is possible for small investors to put \$25 or \$100 dollars in our investments and realize 500% and more on money invested in the course of a year, sometimes less. We believe it to be the duty of every investor to investigate our wonderful investment opportunities and if satisfied, to put their money into our hands for quick profits. No wild-cat, gamble or promotion stock is handled through our office. We are men of experience and our knowledge of the Texas oil situation is your protection when investing in oil.

STATION C - LOS ANGELES

San Francisco. - After twenty-six years of married life, Mrs. Belle Duncan, 49 Alma Street, was granted a divorce from Dr. George W. Duncan, 49 Post street, on the grounds of cruelty. She charged that on Easter Sunday, 1917, her husband came home and brutally beat her 23-year-old daughter, and that in April of this year she visited his office, to find him in the company of a strange woman. He became so enraged at her discovery, she said, that he literally threw her out of the office and declared that if she ever attempted to interfere with him he would kill her.

YES! MAGICALLY!
CORNS LIFT OUT WITH FINGERS
You corn-pestered men and women need suffer no longer. Wear the shoes that nearly killed you before, says this Cincinnati authority, because a few drops of freezeone applied directly on a tender, aching corn or callus, stops soreness at once and soon the corn or hardened callus loosens so it can be lifted out, root and all, without pain. A small bottle of freezeone costs very little at any drug store, but will positively take off every hard or soft corn or callus. This should be tried, as it is inexpensive and is said not to irritate the surrounding skin.
If your druggist hasn't any freezeone tell him to get a small bottle for you from his wholesale drug house. It is fine stuff and acts like a charm every time. -Adv.

Santa Clara. - The funeral services of Rev. Joseph M. Neri, the last of the old Jesuit fathers, were held here November 19. Like all services of this order, the services were marked by their simplicity. Rev. T. L. Murphy, president of the university, conducted low mass with all the fathers in the sanctuary.

Allen's Foot-Ease Does It.
When your shoes pinch or your Corns and Bunions ache, get Allen's Foot-Ease, the antiseptic powder to be shaken into shoes and sprinkled in the footbed. Gives instant relief to Foot Aching, Tender Feet. Sample FREE. Address Allen S. Olmsted, Le Roy, N. Y. -Adv.

San Luis Obispo. - Mrs. Fred A. Dean, widow of the prominent Paso Robles resident, who was found murdered in his home Monday night, November 17, attempted suicide by cutting her throat with a butcher knife. The physician who attended her expressed the belief that she would live. Mrs. Dean left a note which said: "I can't stand the strain no longer. I am going."

Cuticura Soothes Baby Rashes.
That itch and burn with hot baths of Cuticura Soap followed by gentle anointments of Cuticura Ointment. Nothing better, purer, sweeter, especially if a little of the fragrant Cuticura Talcum is dusted on at the finish. 25c each everywhere. -Adv.

Modesto. - According to a telephone message received here by Sheriff Dallas from Livingston, Merced county, Nina Edwards, four years old, became frightened last evening at a brush fire near the town and ran away from home. More than 400 searchers have failed to find any trace of the child.

Philatelists Swindled by German Stamp Speculator; Fake Estonian Stickers

"A German citizen, who knows how eager the world's collectors are to obtain the stamps of the countries of the new Europe, has succeeded in pulling the wool over the eyes of philatelists, many of whom have paid as high as \$30 for a set of Estonian stamps which have proven to be 'fakes,'" writes Kent B. Stiles in the stamp department of Boys' Life.

"When the Esths proclaimed their land an independent republic on the day on which the armistice was signed, last November, the German citizen was living at Reval, where the proclamation was issued. He hurried to a post office and purchased stocks of the stamps which the German occupation authorities had forced the people of this former section of old Russia to use during the days of the invasion by the German troops. These stamps are Germany's own 'woman in armor' designed labels, but with the surcharge 'Postgebiet Ob. Ost.' upon them.

"These occupation stamps the German citizen took with him to Germany, and upon them he had overprinted the inscription 'Esti,' meaning 'Estonia.' These were then allowed to circulate among stamp dealers. It was supposed that they had been legitimately issued by the Estonian government, and they were soon regarded as being among the more valuable stamps of Europe's reconstruction period."

Noise Like Airplane Adds to "Movie" Plane Scenes

All kinds of instruments are used behind the stage in theaters and picture houses to produce imitations of noises, such as the clattering of horses' hoofs, the entrance of a train into a station, and so on; and quite elaborate machines have been thought out to produce these noises. Flight has made it necessary to invent still another one, and a new instrument has been produced to make a noise like an airplane. Two large disks are fitted together with partitions like a water-wheel, and holes about four inches apart are arranged round the circumference. While one man turns the "wheel" quickly round, another man pours a jet of compressed air against the holes, and the noise is exactly like that of the motor of an airplane in flight.

Mother's Cook Book

Cherish friendship in your breast, New is good, but old is best. Make new friends, but keep the old. These are silver, these are gold.

What to Have for Breakfast.
If a woman be her own maid, as statistics tell us 85 per cent of us are a dainty satisfying breakfast is her family's by a little preparation in advance. An alarm clock to insure the right time of rising will give ample time to arrange the meal unhurriedly. He who goes mornings from a quiet house, comfortable and well ordered is twice as capable as his neighbor whose wife either leaves him to prepare his own meal or comes down with disordered hair and apparel, and whines at him from across a miserable breakfast.

The "uniform breakfast" advocated by some is a most convenient one as it saves brain fog; you know just what you are to prepare and the family knows just what they will have; however, the most of us like an occasional break from fruit and cereal, eggs and bacon, either or both, toast and coffee, with perhaps a doughnut or cookie to finish off with.

A pleasing variety in the daily menu is secured by having a variety of prepared cereals as well as those which need cooking. In this way there is no chance to tire of any one kind and the favorites may be repeated more often.

Coddish balls, broiled or baked mackerel, finnan haddock and smoked salmon are fish dishes which are permissible for the first meal of the day.

Of the meats the favorites are bacon, ham, chops, corn beef hash, fried beef and calf's brains.

Eggs are universally used as a breakfast dish and are served in so many ways that one never tires of them. Omelets form an especially desirable egg dish. Scrambled, fried, poached, cooked in the shell, cooked in ramekins with cream, and eggs in combination with rice and other foods too numerous to mention are all desirable dishes.

A Sweet Omelet.

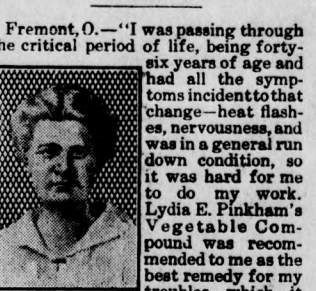

Separate the whites and yolks of the eggs using four, six or eight, the number suitable to the family appetite. Beat well, season with salt and a dash of cayenne, add as many table-spoonfuls of cold water as there are eggs, adding it to the yolks when beating them. Turn the yolks into the stiffly beaten whites; pour into a hot well-buttered, smooth omelet pan to which has been added a half cupful of blanched almonds. Cook as usual, fold and serve with hot maple syrup.

Whale Slow But Sure.

The ordinary speed of a whale is about five miles an hour. Hard-pressed, a speed of 15 has been recorded, but not beyond that.

THAT CHANGE IN WOMAN'S LIFE

Mrs. Godden Tells How It May be Passed in Safety and Comfort.

Fremont, O. - "I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change - heat flashes, nervousness, and was in a general run down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it

surely proved to be. I feel better and stronger in every way since taking it and the annoying symptoms have disappeared." - Mrs. M. GODDEN, 925 Napoleon St., Fremont, Ohio.

Such annoying symptoms as heat flashes, nervousness, backache, headache, irritability and "the blues," may be speedily overcome and the system restored to normal conditions by this famous root and herb remedy Lydia E. Pinkham's Vegetable Compound.

If any complications present themselves write the Pinkham Medicine Co., Lynn, Mass., for suggestions how to overcome them. The result of forty years experience is at your service and your letter held in strict confidence.

UGH! A DOSE OF NASTY CALOMEL

It salivates! It makes you sick and you may lose a day's work.

You're bilious, sluggish, constipated and believe you need vile, dangerous calomel to start your liver and clean your bowels.

Here's my guarantee! Ask your druggist for a bottle of Dodson's Liver Tone and take a spoonful tonight. If it doesn't start your liver and straighten you right up better than calomel and without griping or making you sick I want you to go back to the store and get your money.

Take calomel today and tomorrow you will feel weak and sick and nauseated. Don't lose a day's work. Take a spoonful of harmless, vegetable Dodson's Liver Tone tonight and wake up feeling great. It's perfectly harmless, so give it to your children any time. It can't salivate, so let them eat anything afterwards. -Adv.

Bakersfield. - That a grim tragedy has been enacted on the desert in Red Rock canyon sixty miles east of here is the belief of District Attorney J. R. Dorsey, who received a telephone message from Constable Baker at Garlock, in Kern county, that the headless body of a man had been found there. The body had been lying in the sand for several days, the message said, and had been badly torn by coyotes. Details of the alleged crime are lacking, but District Attorney Dorsey, accompanied by Sheriff Boone Newell and Coroner A. H. Dixon, left for the desert with the hope of unraveling the mystery.

MURINE Heals, Refreshes, Soothes, Keeps Your Eyes Strong and Healthy. If they Tired, Smart, Itch, or Burn, or are Irritated, Inflamed or Granulated, use Murine often. Safe for Infant or Adult. At all Druggists. Write for Free Eye Book. Murine Eye Remedy Company, Chicago, U. S. A.

San Francisco. - Despondency induced by illness caused Mrs. Freda Schroeder, 39 years old, to end her life by slashing her throat with a razor at the home of her sister, Mrs. H. J. Quentin, 319A Guerrero street. She was the wife of J. R. Schroeder, a marble worker, of 2030 Twenty-fifth avenue. Mrs. Quentin said that her sister had been ill for some time and that she recently underwent an operation.

NOTICE OF ASSESSMENT

Santa Clara Valley Water Company, a Corporation, Northeast corner of Campbell Avenue and Central Avenue, in the town of Campbell, County of Santa Clara, State of California.

Notice is hereby given that at a meeting of the Directors held on the 6th day of Nov, 1919, an assessment of \$982.00 or \$1.00 per share was levied upon the subscribed capital stock of the corporation, payable on or before the 10th day of December, 1919, to the Secretary, B. P. Kennedy, at the office of the Company in Campbell, Cal. Any stock upon which this assessment shall remain unpaid on the 10th day of Dec., 1919, will be delinquent and advertised for sale at public auction, and unless payment is made before will be sold on the 27th day of December, 1919, to pay the delinquent assessment, together with the costs of advertising and expenses of sale.

Dated Campbell, California, November 6, 1919.
B. P. Kennedy, Sec. of the Santa Clara Valley Water Company.

Notice to Wreckers

Notice is hereby given that sealed proposals or bids will be received by the Board of Trustees of the Campbell Grammar School of Campbell, Santa Clara County, California, up to 6 o'clock p. m. of November 28, 1919, for the purchase of the old school building located on the school grounds at the corner of Rincon Avenue and Los Gatos-Santa Clara Road.

All bids must be for a net cash price for the building and the successful bidder shall remove the building from the grounds and level the ground where it stands now within 90 days after said bid is accepted.

The Board reserves the right to reject any and all bids.

All bids must be addressed to T. A. Robinson, clerk of the Board of School Trustees, Campbell, Cal. By order of the Board of Trustees of Campbell School District.
T. A. ROBINSON, Clerk.

In the Superior Court of the State of California, in and for the County of Santa Clara

the Dissolution of) Notice of Hearing
Campbell Realty) of Application for
Company, a Cor-) Dissolution.

NOTICE is hereby given that an application for the dissolution of Campbell Realty Company, a corporation, has been filed in the office of the Clerk of the Superior Court of the State of California, in and for the County of Santa Clara, and will be heard by the said Court at the Courtroom of the Department thereof to which the said matter may hereafter be assigned, in the County Court House, in the city of San Jose, County of Santa Clara, State of California, upon Friday, the 26th day of December, 1919, at the hour of 10 o'clock A. M.

Witness my hand and the Seal of said Court, this 18th day of November, 1919
(SEAL) Henry A. Pfister, Clerk.
By H. C. Pfister, Deputy Clerk.
Bohnett & Hill, Attorneys for applicant.

GOAT MEAT GOOD AS MUTTON

It is Said Only Experts Are Able to Tell the Difference Between the Two.

There is a growing disposition to give the goat his due. Heretofore this rubbish-eating animal has been regarded pretty much as a joke, but he has continued to eat tin cans and thrive until now his race has acquired census-listing proportions and a market has been established in a middle-western city where surplus goats will be converted into "spring lamb" for the benefit of our non-vegetarians. As an addition to the poor man's meat perhaps the goat will be welcome, especially if his advent tends to lower the present high prices.

Goat meat tastes much the same as mutton, it is claimed, and that the difference cannot be told save by an expert. Perhaps that is just as well. Our imagination has much to do with our taste. Many people are eating horse meat in this country under the impression that it is beef, for horses are slaughtered, but almost nowhere is their meat exposed for sale under its true name. No doubt the easiest way for us to get used to goat meat is to camouflage it as mutton. It is another case of ignorance being bliss.

But, as we are assured by the experts that it is wholesome, a name will not make much difference in the end. Mutton, the world over, has been the poor man's meat. If goat meat can add to the supply, so much the better. The meat of goats was a favorite in the days of the patriarchs. It is still highly prized in the East. There seems to be no reason why it should not ultimately hold a respectable place on our menus.

THRIFT

By Dr. Frank Crane.

Thrift is simply the application of intelligence to expenditure.

It does not mean only saving. It does not connote skimping and penny-pinching, niggardliness and miserliness. That is often the most foolish kind of waste, waste of health, of spirits and of the joy of life.

Thrift means intelligent spending.

To spend a dollar now may save two dollars next month.

Thrift implies a budget. If you have no wise plan, it makes little difference how much you make. What is the use of forging ahead when you don't know your destination?

Some busy money-makers might sing, with Mr. Dooley, "We don't know where we're going, but we're on our way."

Thrift implies foresight. It means we can see tomorrow as well as today.

—By special permission.

The Woolworth building in New York was built with five and ten cent pieces. Save them.

Gambling and The Tobacco Trade

BY FRANK HICHBORN

At the last session of the Legislature, a law providing the machinery to stop gambling by abatement proceedings was defeated. One of the principal reasons for its defeat was the active opposition of the cigar store interests. An informed observer remarked of the cigar men's attitude: "If the cigar store crowd were wise, they'd be up here supporting that bill."

The observer's position was based upon the part the saloon had played in bringing about prohibition.

"The liquor men," he said, "have the saloon to blame for prohibition. Years ago it became evident that the public was against the saloon. The saloon, instead of cleaning up, became worse. The whole liquor traffic was considered in terms of the saloon. The result is national prohibition."

There is much discussion of the prohibition of tobacco. In my judgment, the public is not keen about tobacco prohibition one way or the other. But the public's opposition to gambling is very much like its opposition to the saloon. If the tobacco trade permits itself to become the defender of gambling, gambling will do for the tobacco trade what the saloon has done for the liquor traffic. The most drastic anti-gambling law that can be drawn is none too drastic for the tobacco trade to support. Upon strict enforcement of such anti-gambling laws the tobacco trade's future may depend."

The Richest Man

The following article, taken from the Norfolk (Neb.) News, was written by an early day apprentice of R. E. Dunphy, which shows that Mr. Dunphy taught his helper more than the mere trade. And others can learn a lesson from this:

Dear Sir:—I noticed the query at the head of your "Somewhat Personal" recently, "What is your idea of a rich man?" I wonder if you knew that one of the richest men in the world was fourteen miles north of Norfolk, right here in Pierce, Nebraska?

That man is the writer. I'm just a common "plug blacksmith," but oh, how rich! I go to my labors each morning, work until noon, go to dinner, return at 1 p. m., and work until 6 o'clock. I enjoy the greatest of all blessings, good health. Rockefeller would give all he possesses in money or holdings for my "stomach," but he can't have it.

Each day sees something accomplished and every job of work I turn out I feel that I have done my customer a service, "worthy of my hire."

I have a most wonderful little wife. She has stuck to me twenty-two years now, so I know she must be a dandy to accomplish that. I have a little home, a little daughter, a son grown to maturity and now in life's game for himself. Rich? Why, man alive, who can possibly be richer?

Then to add to all the above riches, I take down my old shotgun, in season, and ramble thru the fields, woods and tangle, in search of the elusive cottontail, teal and mallard, with my faithful old pointer at "heel" (now past 11 years old), and he is as happy as I when we are on the hunt. Then when I get back oh, how good everything does taste! Then when night has spread its mantle over this good old universe, I settle down in a good old easy chair, enjoy a smoke, and then roll into bed to be embraced by "Morpheus," and never hear a sound until the beautiful break of another day. Rich, did you say? Well, I guess. Dollars? No, not many. You inquire about riches, not material wealth.

The height of my ambition is to live that I may have no regrets for having lived, when the time comes for me to shuffle off this mortal coil, and I hope by that time to have accumulated just enough dollars that myself and mine may not be objects of charity. This, then, is my idea of a rich man. If anyone enjoys life more than I do, he is to be envied for his riches.

With kindest regards,
E. J. Meyers.

Gray-Gardner

Saturday afternoon, November 22, at the residence of Rev. Sutherland, of Grace Baptist church, occurred the marriage of William Lloyd Gardner and Irene Granstrom-Gray. Both young people were former Campbell residents and graduated from the local high school and have a number of friends here who will wish them all happiness. After a week's honeymoon they will be at home at 170 East San Carlos street, San Jose.

Baby Grizzle, who underwent a mastoid operation last week, is steadily improving.

Lieut. W. D. Horner of the U. S. N., and wife, Dr. and Mrs. E. C. Clendenin and Mr. and Mrs. Leo Vollmer were guests at the W. C. Bohnett and Claud Gard homes, Sunday.

Mr. and Mrs. V. O. Clinger, of Muskegon, Michigan, arrived Wednesday evening, to spend the winter with Mrs. Clinger's brother, C. S. Inman and wife. They have made the trip across country in twenty-six days, via the "faithful Ford."

Local "Y" Complimented

As each individual has a distinctive personality, so it is with each community. This is true of every community in the county as regards the group work of the county Y. M. C. A. Very commendable and altogether satisfactory is the distinctive spirit of the county Y. M. C. A. work of Campbell.

Last night the Junior Y. M. C. A. group led by Mr. Fred Bohrmann, convened for the first time this season. The boys have anxiously been awaiting the return of Mr. Bohrmann from his well-earned vacation at Pacific Grove; Mr. Bohrmann has just returned and celebrates his arrival by the re-starting of the group which he has heretofore so successfully led. That Mr. Bohrmann is intensely popular with the boys is indicated by the fact that thirteen boys were present at the first meeting. The election of officers was the chief business of the evening. Mr. Bohrmann, in a pointed speech to the boys, outlined the work for the year, emphasizing the point that manly Christian behavior and earnest emphasis on spiritual things form the strong center of every true successful Y. M. C. A. group.

Not only is the Junior Y. M. C. A. group in Campbell most satisfactory; one of the finest, if not the finest, High School Y. M. C. A. group in the county is also in Campbell, the leader of this being Principal Irving W. Snow, of the Campbell High School. This group started off with a fine attendance, with a deep spirit of earnestness and purposefulness.

Five boys represented this group at the recent Older Boys' convention in Palo Alto. They were a great asset to the convention, as the convention was to them. This group under the leadership of Mr. Snow promises to set a record, during the year, of which, not only Santa Clara county, but the state of California, may well be proud. Be it remembered that such a record can be possible only when the fundamental interest in the deeper things of life continually predominates and dictates the group policy, not only in the mind of the leader, but also in the minds of the members.

It may again be said that the Y. M. C. A. work in Campbell this year starts out with a distinctive purposefulness, which bids fair to secure and to maintain for this community a place in the very first ranks, if not at the head, of the Y. M. C. A. work in Santa Clara county.

C. R. Hicks, County Secretary.

Welfare Day in Campbell

Tuesday, December 2, will be Welfare Day at the Campbell Grammar school. Under the auspices of the Hygiene department of the Home and School Club, arrangements have been made with the Good Cheer Clinic, of San Jose, whereby Drs. G. C. Basset and G. L. Barry, with Mrs. Grace Philbrick, will be at the school all day and conduct examinations of a number of children whose parents have requested the same.

Dr. Basset is from Stanford University and is Clinical Psychologist. He was formerly director of the psychological clinic of the University of Pittsburgh, Pa. He will be here from 9:00 to 12:00, and from 1:00 to 4:00, and will talk to the mothers during the day, and at 4:00 p. m. will speak to the ladies in the auditorium.

Dr. Barry will conduct the physical examinations from 1:00 to 4:00, p. m., and will also address the mothers.

The business meeting of the Club will begin at 3:00 o'clock and a full attendance is desired so that a general knowledge of the work may be spread thruout the community.

Home Industry League

A state-wide campaign for active members to be added to the present large majority, will bring the Home Industry League into the place of one of the largest and most influential state promotion bodies in the country.

President Baldwin Vale outlined the plan at the meeting of the League at the Palace Hotel this week, whereby a survey of the entire state will be made before the membership campaign is begun. The drive will in all probability precede "Made in California Week," which is set for next May.

"The Home Industry League," declared President Vale, "has, through its watchfulness and knowledge of affairs, saved the State of California millions of dollars. We work zealously and ultimately for the patronage of California products, price and quality being equal."

Now we are at the stage where we believe that the manufacturers should help support the good work of the unselfish upbuilding of California.

"The Home Industry slogan, 'Keep the Money at Home and Support the State that Supports You,'" declared James McDonough, general manager of the Mutual Biscuit Company and one of the directors of the Home Industry League, "has become universal thruout California. Business houses are using it everywhere, and manufacturers are trying to live up to it."

Basket Ball

Campbell High School Basket Ball team defeated Santa Clara High in two games last week, the score Wednesday at Campbell being 41 to 23, and at Santa Clara, Friday, 42 to 19.

This makes six straight victories for the local team, with a total score of 329 to 113.

The league schedule begins next week December 5, when Los Gatos will be seen on the local court.

Campbell is going strong this season, and expects to win the I. A. U. pennant. Attend the game and support the team.
